

## SIDE 1

## 1. JUST ONE MORE DAY

I've been missing you for so many days  
I keep waiting you with all so many ways  
I can't get you off of my mind  
But true love is so hard to find  
I won't live another day  
I need another day  
Darling let me have another day  
Then I can live in vain that you want me

The sweet thing you use to do to me  
The kind words you use to say  
I can't forget those lovely day  
But this is the time I'm about to pray  
I want another day  
You can let me have just one more day  
I need one more day  
And I will do anything that you want want me to do

I will do anything that you want me to do  
Say anything that you want me to say  
Buy you anything you want me to buy  
I will cherish you to the day I die  
If you let me have another day  
Please, let me have one more day  
I want just one more day  
And I could be everything that you want me to be

Just one more day now  
You can let me have just another day now  
Please, I want this day and there's nothing I won't do  
And I want all days  
I want all the days  
I want to live  
I want you here by my side  
I don't want you to leave me

## 2. IT'S GROWING

Like a snowball rolling down that  
side of that snow covered hill  
Man, it's growing  
Like that size of the fish that man claimed  
He broke his reel on  
Man, it's growing  
Like a rose bult that drew many man  
in the warning of the sun  
It's growing  
Like the tale by the time it's been told  
Man, more days more it's growing

But everyday it grows a little more  
My love is true  
It grows, it grows  
See how it grow  
It grow, but where it's going to stop  
I feel that nobody knows man  
I said it grows and grows  
Man a little bit atronger  
It grows, it grows a little bit more  
Everyday  
It keeps on growing

Like the need of gay to see his girl when she gone away  
Man it grows  
Like the sadness in his heart when he  
knows she's gone to stay  
Man it's growing  
I say everyday, it grows, it grows  
It's stronger more than than it was before  
My love for you

It grows, it grows, how it grows  
It grows  
But how it's going to stop  
I feel  
Now how it's going stop  
I feel that nobody knows man  
Nobody knows how it grows  
It grows  
Nobody knows man  
It grows

## 3. CIGARETTES AND COFFEE

It's early in the moring about a quarter to three  
I'm sitting here talking with my baby over  
cigarettes and coffee  
And to tell you that darling I've been so  
satisfied, honey since  
I've met you baby since I've met you

Oh, the days that I've been around and all the good  
looking giris I met  
They just seem to fit in, none of this  
particularly sad  
But it seems so natural darling that you  
and I are here just talking over cigarettes  
and drinking coffee

In all my heart trials love that lasts I found  
And honey won't you let me just give you  
my whote life  
And how complete, how complete my whole life would be  
If you would take things under consideration  
And walk down the aisle with me, I would love it, yes

Well, say it's so early in the morning  
it's a quarter to three  
We're sitting talking over cigarettes  
and drinking coffee I know  
And I'd like to show you where I know nothing  
but good old joy  
Since I met you darling honey,  
since I met you, baby  
I would love to have another drink of coffee, now  
And, please darling, help me smoke just one more  
cigarette now  
I don't want no cream and sugar cause I got  
you now, darling  
But just let me enjoy help me to enjoy this good  
time that were having  
It's so early in the morning, so early, so early  
in the morning and  
I've got you and you've got me and we have each other  
And we don't want notning but joy no nothing  
but joy

Lord, and I just didn't have no place to go now
